Social entrepreneurship is a rapidly developing and changing business field in which business and nonprofit leaders design, grow, and lead mission-driven enterprises. As the traditional lines blur between nonprofit enterprises, government, and business, it is critical that business students understand the opportunities and challenges in this new landscape. Through guest speakers, case discussion, lecture, and student presentations this course will explore this emerging field. Students will also participate in the School of Hotel Administration’s social entrepreneurship venture The Entrepreneurship Bootcamp for Veterans with Disabilities.
